Graduation Requirements

The choice of a four-year high school course of study has always been an important decision because of specific requirements of post-secondary institutions. Poor academic planning can result in graduation delays. Therefore, students are encouraged to plan their programs carefully.

A minimum of 21.0 credits is required for graduation from District 202 high schools. One-half credit is earned upon successful completion of a subject that meets on a daily basis for one semester. The successful completion of a course that meets on a daily basis for a full year is worth one credit.

In accordance with State Graduation Law (P.A. 94-0676) student will take the following minimum number of courses during high school:

	Required
English	4
Mathematics	3
Science	3
Consumer Edu	0.5
Social Science	2
Physical Edu	4
Fine Art/ World Lang	1
Electives	3.5
Total Credits	21

	Credits Recommended for College Prep
English	4
Mathematics	3
Science	3
Social Science	3
Fine Art/ World Lang	2
Electives	1

Some State Colleges/Universities allow coursework in Art, Music, or Vocational Education (Business, Family and Consumer Sciences, Industrial Technology, WILCO). Students should check the requirement for the college(s) they plan to attend.

Consumer Ed Proficiency Examination

Legislation provides that interested students (grades 9-12) may take the Illinois Consumer Education Proficiency Test (ICEPT). Students who pass this test are exempt from taking a consumer education course required for graduation. The test is offered once at the beginning of the school year and once at the beginning of the second semester. Students may take this test only once in any school year.

Course Load

All freshman and sophomore students must register for a minimum of 6.0 credits each year. Students at the junior and senior level must register for a minimum of 5.0 credits.

Credits

- All credits will be awarded on a semester basis.
- Only TWO EXTERNAL CREDITS may be applied toward graduation requirements; this does not apply to students not registered as full-time high school students.

External credits are designed for students who need credits for graduation or are seeking to enhance their present course of studies. Only elective course work may be taken by external credit options. Exceptions may be made if a student has failed a required course. The maximum number of external credits allowed is two, unless the building principal grants an exception. Courses are approved by application only. Interested students should see their counselors for an external credit form.
