June 5th, 2019

Dear Parents and Guardians,

Plainfield Community Consolidated District 202 implemented the *i-Ready Diagnostic* assessment this year in grades K-8. The *i-Ready Diagnostic* was administered three times this year in the fall, winter, and spring.

By the end of the school year, you will receive a parent report from the third assessment outlining your child's progress throughout the academic school year in Reading and Mathematics. *i-Ready Diagnostic* assesses the following skill areas:

- Reading - Phonological Awareness, Phonics, High-Frequency Words, Vocabulary and Comprehension
- Mathematics – Number and Operations, Algebra, Measurement and Data, and Geometry

*i-Ready* is an adaptive assessment that presents students with questions that can be both too easy and too hard. It is designed to do this until the assessment finds exactly the level at which the student is performing. Therefore, children will certainly see some items above his or her level.

Each time a student gets an item incorrect, he or she is presented with a simpler question until the diagnostic finds the grade level at which the student is performing. The assessment efficiently assesses students across multiple grade levels, allowing for identification of root causes of students' struggles; or for identification of areas where a student is ready for further challenge. The results of the adaptive assessment provide teachers with an instructional course of action personalized for each student.

More information is also available at: <http://i-readycentral.com/home-connections/>

Feel free to contact your child's teacher, building administration, or district office if you have any questions related to the *i-Ready* assessment.

Sincerely,

Dr. Glenn A. Wood

Assistant Superintendent, Curriculum and Instruction
