

Using Xbox and PlayStation for Remote Learning

Students can open Google Classroom on Xbox and PlayStation.

Please use the built-in browsers that come on the two devices:

- Microsoft Edge on Xbox
- The “www” browser on PlayStation

Each device also has a “Search” function on the home screen.

Once the browser is open:

1. Type in “**classroom.google.com**” in the URL bar.
2. A prompt for a **Google account** will appear.
3. Type in your **school district email and password** – it doesn’t end in google.com and that is ok!
4. The **Classroom home screen** will open.

Navigating this process will be easier with a keyboard plugged in to the console

However, students without a keyboard can use their controllers to click on the classroom tiles, open up assignments and type.
