

**Dear Plainfield Academy Family,**

Yesterday morning we received the heartbreaking news that Alyssa Geisler had passed away. Alyssa was a student in our TAP program for three years and just recently graduated.

We realize that her sudden passing may be difficult for many of our students and staff as she crossed paths with so many during her time at Plainfield Academy.

We will be informing Plainfield Academy and TAP high school students later today. Social work services will be available on Wednesday (6/9) from 12:00 to 3:00 PM and again from 6-8 p.m. and Thursday (6/10) from 12-3 p.m.

We are providing this time to offer support to each other and our students as well as an opportunity to gather as a community to remember this very special student.

When arrangements become known, we will forward the information to everyone. Please keep Alyssa and her family in your thoughts and prayers.

If you need help coping through this difficult time or for any other reason, the District has invested in an online tool to help families and staff get connected into local mental health resources. As a staff member, you have access to this tool, which provides the ability to search by location, specialty, insurance accepted, in person treatment, and many other data points to filter and find treatment options.

If you haven't used the tool, know that as a staff member of the district **you have access to it**. To sign up, click this [link](#), use your district email address, and select Plainfield District 202 as the organization.

Here are a few 1-2 minute [videos](#) reviewing the various features of the tool, if you have any questions or concerns you can reach out to ReferralGPS at [info@referralgps.com](mailto:info@referralgps.com) or to me directly.

This is only for your person use. Please do not share your username and password with others. More importantly, please do not refer your students or families as these referrals should continue to come from your student's social worker or counselor.
