

Dear Parents and Guardians,

Thank you for signing your child up for SHIELD testing. Plainfield School District 202, along with over 135 other Illinois school districts, has partnered with the University of Illinois and SHIELD Illinois to provide saliva based COVID-19 tests to our students and staff. The saliva-testing process will be conducted by our operational partner, PIVOT.

Create your SHIELD IL Portal account

You must create an account on the [SHIELD IL portal](#) to view test results. We have found that many families are not setting up their SHIELD Portal account, which is causing families to not have immediate access to testing results.

Please use the **SHIELD Community Agency Code** below to create your portal. If you are the parent or guardian of a minor(s) and wish to see their results, please first create a portal for yourself then add your minor(s) as dependents to your account.

When adding a rostered student as a dependent, the unique email or mobile phone entered must match the patient roster (Use the primary contact email or phone number that you entered during online SHIELD registration to attempt to match the value in the portal). Once a match is found, parents will be able to access their student's test results.

Please click [here](#) for directions for establishing a Family Portal Account to access test results.

SHIELD Community Agency Code: df5brbrj

If you have any issues signing into the SHIELD portal or creating a SHIELD account to access your test result, please call SHIELD IL Help at (217) 265-6059. They will not release results but can assist you with account access issues. Please visit [SHIELD](#) for more information regarding this testing.
