

**PARENT BUS APP**  
under construction and  
coming soon!

District 202 will be rolling out a new Parent Bus App for our regular education students who receive transportation.

We hope to have the new App available in the second quarter of the 2022-2023 school year. Once the App is live, parents will receive communication on how to access student transportation information.

Benefits of the App:

- Real time bus tracking for pick up and drop off
- Less wait time standing at the bus stop during inclement weather

**Stay tuned!!**
