

Dear Plainfield 202 Community,

At the end of the 2022-23 school year, I am filled with gratitude and admiration for our students, staff, and families. Your dedication to each other and learning has made this year, while demanding, rewarding.

I commend our entire student body for your efforts to work together to focus on learning. The expectation for the future is to continue to build positive relationships with one another based on mutual respect.

Thank you to our families for your support and contributions to make a positive difference for students, teachers and staff. Your engagement is a cornerstone to your child's educational journey, and it is a privilege to be educational partners with you.

I'm continually impressed and appreciative of the hard work and expertise of our staff for their dedication to students and each other during this year. I want to recognize each of you for the energy and care you bring to your work. Together, we are making a visible difference.

Setting sights for the 2023-24 school year, we look forward to continued work on our Strategic Plan and building on the expectations and routines that were re-established this year.

For those returning to our schools for the new school year, we will see you on our campuses on August 17, 2023. Please watch for information from your schools over the summer for the details you'll need to start the school year strong.

I wish our retirees the best after serving our district for so many years and contributing immensely to the success of our schools. I hope you have great enjoyment in the next phase of your life.

"Preparing Learners for the Future" is important and influential work. Thank you for everyone's contributions to provide the best experience possible for our students, and to create the excellent schools of which our community is justifiably proud.

Have a great summer!

Dr. Glenn Wood

Superintendent of Schools
